

Overview of Learning Areas

The following overview is a brief outline of what students will be learning in each key learning area.

Learning Area	Brief Overview
English	In this unit, students will listen to, read and view picture books to identify some features of characters and create their own character description.
Mathematics	In this unit, students will investigate the features (e.g. sides, corners, faces and edges) of 2D and 3D shapes. Students will also learn to use positional language (e.g. forward, backwards, left, right, etc.) to describe location. Lastly, students will explore the features of Australian coins (e.g. shape, size, colour, etc.)
Science	In this unit, students will explore how everyday materials will be physically changed.
Dance	In this unit, students will explore how their bodies can move.
P.E.	In this unit, students will develop the ball skills of rolling, catching, bouncing and throwing.
